20. ABSTRACT (Continue on reverse side if necessary and identify by block number) This bibliography covers books and periodicals on the subject of Afghanistan. Periodical coverage is arranged in two parts. Part One covers the period up to 24 Dec 79. Part Two presents articles dealing with the current Russian invasion which commenced on or about that date. A checklist of dates important to an understanding of Afghanistan's military history is appended.		

## FOREWORD

This number presents book and periodical articles owned by the Morris Swett Library, USAFAS on the subject of Afghanistan. Materials have been selected which have a general military application. As the list of battles and dates indicated in Part III suggests, Afghanistan has played a pivotal role in world and regional history for the past 2,500 years. Trotsky once wrote that the road to Berlin passes through Afghanistan.

Arrangement of this list is by books and periodicals. The articles are alphabetically arranged by an arbitrarily arranged acronym. Inclusion of an item, or omission, neither implies USAFAS indorsement or sanction of the compiler's point-of-view nor does it guarantee accuracy of content. Comment and criticism concerning this list is solicited.
